WE ACCEPT: **VISA**

Thank you for your interest in our Poly Vinyl stencils. The following pages contain information and prices on over 300 standard ready to ship items. Materials used for all of our stencils are 100% virgin polymers with thicknesses of 1/8" and 1/16" gauge to withstand heavy use. Our stencils are all designed to meet D.O.T. specs nationwide. Layout and designs follow through to the smallest stencil, allowing you to create more visible and proportioned markings. All stencils are cut with ample overspray and are designed for a quality job. Our stencils are easy to transport, lighter than wood or metal and clean up easily. When paint dries, it easily peels from polymer.

We have designed patterns and legends to suit your every need in pavement marking. In addition, our stencils are designed for many other types of applications. Some of the many uses for our stencils are as follows:

- Industrial Floor Marking
- Wall Legends
- Machinery Labeling
- Factory Safety Awareness
- Athletic Fields
- Running Tracks
- Airports
- Logos

All of our stencils roll up easily for quick UPS shipping. Just order by item number or call us for a quote on any custom stencil you may need.

QUALITY PRODUCTS AND FAST SERVICE!

All our stencils will always lay flat, yet will flex to conform to any surface—smooth or rough. Apply paint with brush, roller or spray equipment. Flexible stencils will not develop a paint build up. When paint dries, it simply flakes off.

Designed for heavy use, with minimum care our stencils will last a lifetime. Unlike wood, aluminum or other stencils, our stencils will not break, bend, crease, warp or load up with paint.

All stencils are cut to give crisp, accurate markings.
